

To Whom it May Concern

**New electronic system for issuing foreign trade documents (old system remains in use),
new stamps, "VISAED" stamp to replace the "full confidence" stamp**

The Finland Chamber of Commerce (formerly the Central Chamber of Commerce of Finland) as the guaranteeing organisation oversees confirmation of foreign documents issued by the Finnish Chambers of Commerce. According to the Chamber of Commerce Act 1.11.2002/878 it is the duty of a Chamber of Commerce to confirm foreign trade documents where such a duty has been prescribed by other legislation.

The Finnish Chambers of Commerce have taken into use an e-Export documents online service for issuing foreign trade documents. The old service system will also remain in use (contemporaneously).

The e-Export documents is a service maintained by the Finnish Chambers of Commerce, where European Community/Union Certificates of Origin and a number of other foreign trade documents are issued, confirmed, stamped and signed electronically.

Please find enclosed designs of the new stamps of the Finnish Chambers of Commerce, which issue the foreign trade documents and many other foreign trade documents, and that of the VISAED stamp, which replaces the confidence stamp.

Yours faithfully

HELSINKI 18TH APRIL 2016
